BALA (Building as Learning Aid) art - It is an innovative approach to education through which topics are displayed in a creative & fun way on walls & other physical structures. Relying on children's attraction to colours, this method makes elementary education fun, attractive & engaging.

5 Anganwadis of 3 villages were in rented premises. So, in lieu of Bala paintings the anganwadis were enhanced through gifting of toys, utensils, drinking and eating arrangements & furniture for kids & staff

**Result of our
focussed efforts :**

attendance achieved**

**700 kids & 400 families
